Custom Blow Molded Products

Since operations began in 1973, Confer Plastics, Inc. has been committed to **utilizing continuous process improvement programs** to achieve customer satisfaction. As a result, we have grown to become a leader in the blow molding industry.

We provide custom plastic parts manufacturing and secondary assembly operations with **strict adherence to technical specifications**. Many clients rely on our expertise to assist them in **bringing their new ideas to the marketplace**, quickly and cost effectively - from start to finish.

Molding Your Future

with commitment, quality, capability

In addition, our sales and customer service professionals are always available for consultation, and teamed with our highly skilled engineering and production teams **provide a higher level of service** that clearly sets us apart as industry leaders. We welcome any questions you may have of us, our products and services. Please contact us at **1-800-635-3213** or see us at **www.ConferPlastics.com**

and customer satisfaction

Econfer Plastics is a superior single source supplier for custom blow molded products. Utilizing a wide range of capabilities we can **successfully guide your project** from design to production to packaging and shipment.

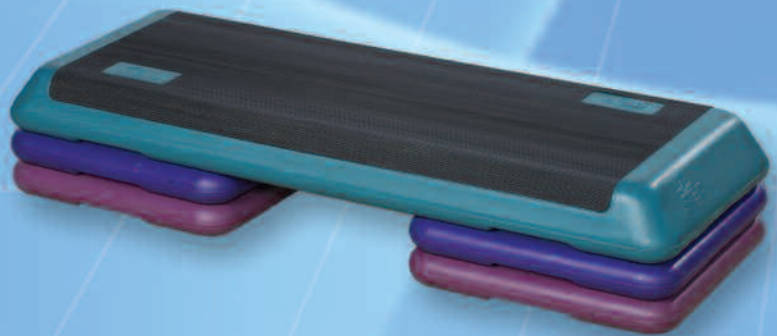

At the inception, an experienced design engineer will assist in the development of your product, **offering technical improvement suggestions** and developing cost effective methods and materials.

In addition, we are constantly looking at streamlining processes and procedures.

Custom Products

meeting your demands, exceeding

Our long term philosophy of capital reinvestment has resulted in thoroughly modern facilities which house state-of-the-art design and engineering services, a fully equipped mold and tooling department, **blow molding machines of various sizes up to 75 lbs.**, a secondary operations and finishing department, and a vast warehousing and distribution center

With continuous plant wide training and scheduled maintenance programs in place to ensure safety and guard against down time, **you can rely on Confer Plastics to produce your product** on time, every time.

your expectations

Confer Plastics, Inc. manufactures its own proprietary line of home leisure products. We entered the market in the 1970's, inventing the first all-plastic swimming pool ladder. We then entered the spa market, engineering a wide variety of accessories. We recently expanded our line, introducing high-quality lawn and patio furniture, gazebos and pavilions.

Confer Plastics' Proprietary Products

> **Pool Ladders and Steps** > **Spa and Patio** > **Pavilions and Gazebos**
