

Model #6100- EXT
Extender Kit for #6100 Inpool Ladder

Parts List

- 2 – Long Extension Boot
- 4 – 1/4-20 x 2” Bolt
- 4 – 1/4” Nylon Acorn Nut
- 1 – Tread

Note: For missing or replacement parts, please visit our website at www.conferladders.com.

The Extension Boots will raise the ladder to an approximate height of 64”.

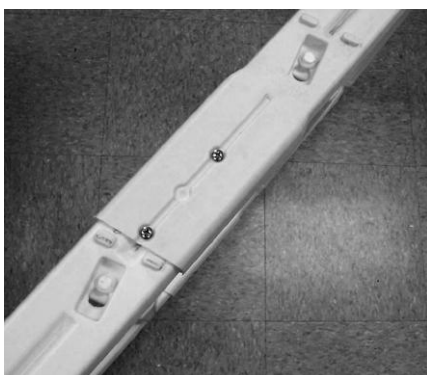

1. Remove the bottom tread, if it has been installed.
2. Assemble the two treads to the two long extension boots as shown.

3. Slide the extension boots onto the ends of the ladder legs so that the top angles of the boots match the underside angles of the tread.

4. Drill two 5/16” holes all the way through each extension boot and fasten with the 1/4-20 x 2” bolts and acorn nuts. Drill one of the holes near the top of the sleeve section of the boot and the second hole near the bottom of the sleeve section.
