

## #EB100 RISER

**DIRECTIONS:** Partially fill riser(s) with about 10 pounds sand; fill remainder with water and screw threaded cap onto end of riser. Thread nylon ties through two outer holes in each depression of riser. If using two risers, thread the nylon ties through the top riser only. Bolt the risers together through the two remaining holes in each depression of riser. Strap riser(s) to bottom of ladder with nylon ties, and tighten securely, making sure that ends of straps do not come in contact with pool liner.
